## Bob Hope Toots For Les

Where there's Hope there's Brown, as the tooting Bob gags with technician Les during a recent TV show. Les and his band will be at the Midway ballroom Monday for a one-night dance date.

around noon for lunch, or later for dinner, or around the magic hour of midnight for a snack, and see for yourself. The club has its El Sombrero lounge and El Patio dining room, each with a gay South American atmosphere.

KILTY'S BUFFET has developed into one of the busiest restaurants in town, and the reasons are easy to see, for the place specializes in a rather short but eminently satisfying menu. Fried chicken, ribs and steaks head the list of house specialties. You may have to wait a short while for a table some days, but such a wait is indeed well worth your while.

RED LANTERN is a most inviting place to try for dinner or late snack. Try it once, and me thinks you'll return again and again. You'll rate royal service and enjoy every bite. All food there is cooked to order. The bill of fare features hickory charcoal broiled specialties with an aroma and flavor all their own. Air-conditioned insure your comfort.

CLUB ROSEANN says it with a smile, a merry moment of mellow music and many menu favorites. Roseann, the club's own queen of the organ, is there nightly, proffering melodies in generous abundance. In addition to the food and entertainment, you'll enjoy the tranquility of the air-conditioned room.

HOSE OF HUGHES has long been noted for its excellent dining, and now the place is adding more emphasis to that department, with the addition of more fish specialties. You'll want to keep the suburban dining place in mind for Fridays and also for other nights as well as for Sunday dining from early noon. You can dine there indoors or outside as you wish.

THE NEW REGENT is doing right well with its program of dancing every Wednesday, Friday and Saturday with the toe-tapping music of Tony Barren and his band, noted for the quality of their synopses. The ballroom is air-conditioned, so there's no need to let warm weather keep you from dining. An organist alternates with the band, so music is non-stop all three nights.

HAMEL'S RESTAURANT is new as tomorrow's sun, as the saying goes, so it's a real delight to dine there, to take in the hearty hospitality as well as the refreshing beauty of the surroundings. The lake room is the new main dining room, and in addition there is a banquet room that can accommodate up to 350 persons.

CLUB KOKI has the romantic atmosphere of the South Sea to intrigue you, the cool breezes of the blue Pacific to
